

# TIPS ALWAYS READ THE LABEL CAREFULLY!

## PARTY POPPER

Keep away from ears and eyes. Hold at arms length and point away from body, other people and animals.

## ROCKETS

For outdoor use only, avoid overhead obstructions. Insert in a launching device (e.g. pipe), standing sideways light the fuse and get away.

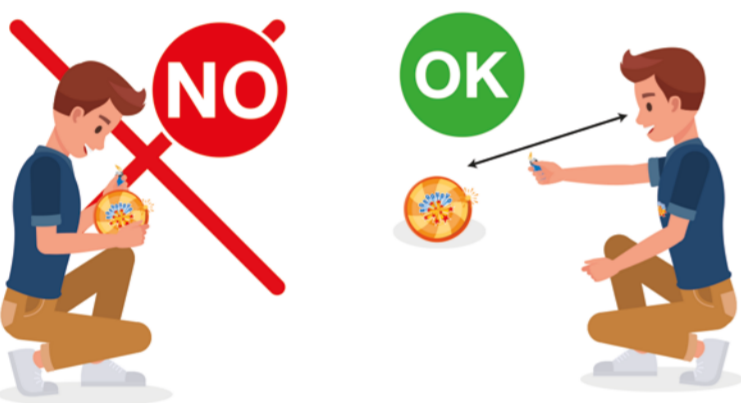

## ROMAN CANDLES

For outdoor use only, avoid overhead obstructions. Place upright in soft ground. Standing sideways light the fuse at its outermost end and get away.

## GROUND WHEELS

For outdoor use only. Place singularly on a flat surface, light the fuse at its outermost end and get away.

## FOUNTAINS

For outdoor use only. Place upright on the ground, standing sideways light the fuse at its outermost end and get away.

## BENGALS

For outdoor use only. Insert Bengal in a soft surface or other non-flammable material (e.g. sand). Standing sideways, light fuse at its outermost end and get away.

## HAND BENGAL

For outdoor use only. Light on top, hold at arm length and point away from body or other people. Do not point headwind.

## SPARKLERS

Use singularly over a non-flammable surface. Light one sparkler at a time at its outermost end. Keep away from body and flammable materials.

Do not inhale smoke.

**CAUTION!** Once extinguished it is very hot.

## BATTERIES

For outdoor use only, avoid overhead obstructions. Place on a flat ground, standing sideways light the fuse at its outermost end and get away.

## AERIAL WHEELS

For outdoor use only. Place singularly on a flat ground positioning it the correct way up. Light the fuse standing sideways and get away. **CAUTION!** Wheels fly high.

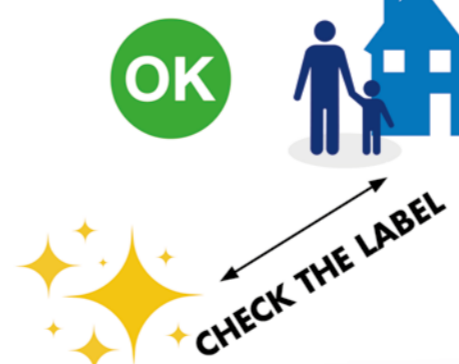

## BANGERS

For outdoor use only. Place singularly on the ground, light the fuse at its outermost end and get away. Do not remove powder and do not tie together.

**ALWAYS  
KEEP  
SAFE  
DISTANCE**
